1. Introduction

1.1 Objective

The Promotion of Access to Information Act No.2 of 2000 ("PAIA") aims to give effect to the Constitutional right of access to any information held by the State or by any other entity or person where such information is required for the exercise or protection of any right. It gives entities and persons the right to access records held by private or public bodies.

The Protection of Personal Information Act No.4 of 2013, ("POPIA") promotes the protection of Personal Information processed by public and private entities.

Where a request is made under PAIA to a private entity, that private entity must disclose the information if the requestor is able to demonstrate that the record is necessary for the exercise or protection of any rights, and provided that no grounds of refusal under PAIA apply.

Section 51 of PAIA requires private entities like Altron to compile a PAIA Manual that enables a person to obtain access to information held by the private entity. This document serves as Altron's PAIA Manual as required by section 51 of PAIA.

This PAIA Manual provides a reference to the records held by Altron and the procedures that need to be followed to request access to such records.

The purpose of this Manual is to: (i) facilitate requests for access to records held by Altron; (ii) provide information regarding the categories of records held by Altron; (iii) explain the process to be followed when requesting access to records; (iv) provide contact details of the Information Officer and Deputy Information Officers; and (v) provide information regarding the processing of personal information by Altron.

Altron respects the privacy of personal information as referred to in the Altron Privacy Statement. Request for information will be evaluated and the requester will be notified within 30 days after receipt of the request in the prescribed format of the following:

9.2 Notification of extension period (if required)

12. Third Party Information

If access is requested to a record that contains information about a third party, Altron is obliged to attempt to contact this third party to inform them of the request. This enables the third party the opportunity of responding by either consenting to the access or by providing reasons why the access should be denied.

In the event of the third party furnishing reasons for the support or denial of access, our designated Altron Information Officer will consider these reasons in determining whether access should be granted, or not.
