Netstar STARtag product range.

Introducing STARtag, a dedicated asset tracking platform for your tracking needs!

Why Sign-up?

The STARtag BLE range is more than just an asset tracking device range, it's a smarter, more resilient way to protect what matters most. Whether you're managing a fleet, securing high-value goods or personal items, STARtag BLE offers:

- ✓ **GSM-Free Tracking:** Operates without SIM cards or data plans, making it ideal for rural, cross-border, and low-connectivity environments. The most cost effective way for peace of mind.
- ✓ **Crowd-Connectivity:** Leverages nearby smart phones to locate lost or stolen items, even in GSM blind spots.
- ✓ **BLE Technology:** Long battery life and compact form factors tailored for both commercial and consumer use.
- ✓ **Seamless Integration:** Netstar's trusted platform, giving you access to real-time tracking, alerts, and device management via Web and mobile app.

With STARtag BLE, you're not just buying a device, you're joining a connected ecosystem designed to help you track smarter and move faster.
