

A woman with blonde hair, wearing a red quilted vest over a blue and white plaid shirt, is looking down at a tablet computer she is holding. She is standing in front of a large fleet of blue semi-trucks parked in a lot. The background is slightly blurred, and there is a warm, golden light in the upper left corner, suggesting a sunrise or sunset. The overall scene conveys a sense of modern fleet management and technology in use.

NETSTAR BUSINESS FLEET SOLUTIONS

*FOR A SAFER &
MORE EFFICIENT
FLEET OPERATION*

YOUR CHALLENGE

OPERATE A SAFE & COST-EFFECTIVE FLEET

Fleet management is not your only priority.

We know that running a fleet regardless of size means more than just knowing where your vehicles are and what they are doing. Every trip forms part of a larger business process that impacts the bottom line.

OUR BUSINESS FLEET SOLUTIONS

NO MATTER YOUR FLEET NEEDS, WE'VE GOT A SOLUTION

Whether you want to **ensure the safety of your vehicles & drivers, secure your cargo & trailers, or improve fleet utilisation & reduce cost.** Netstar has the right fleet solutions for you – no matter the size or phase of your business.

Our fleet management solutions will scale with your business needs. Thanks to our innovative big data cloud architectures, your fitted devices remain universal no matter which services you're signed up for – or upgrade to later.

NETSTAR FLEET TRACKER

For smaller fleets with **BASIC** needs, our Fleet Tracker provides real-time dots-on-a-map visibility of your fleet, driver safety and security for your vehicles.

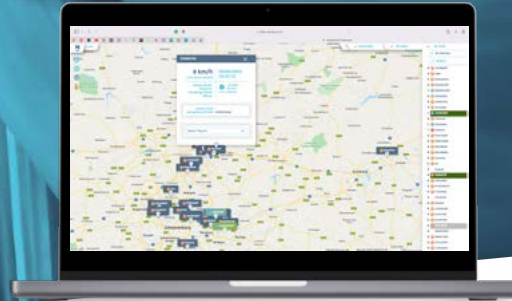

36-MONTH RENTAL:

R 173 per month
(excl. VAT)

No upfront payment

Key benefits:

-  Vehicle visibility
-  Safer drivers & vehicles
-  Better customer delivery

NETSTAR FLEET MANAGER

For fleets with more **ADVANCED** needs, our Fleet Manager will help you to improve the efficiency and ROI of your fleet by knowing exactly what and how your vehicles and drivers are doing.

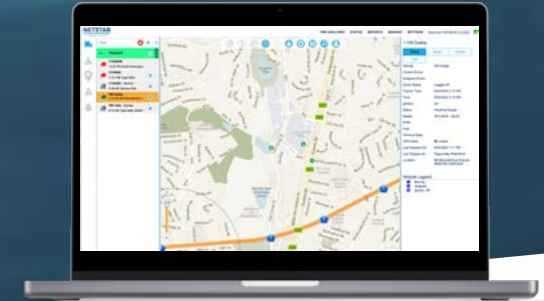

36-MONTH RENTAL:

R 208 per month
(excl. VAT)

No upfront payment

Key benefits:

-  Driver & fleet safety & security
-  Better control & fleet utilisation
-  Increased efficiencies & fuel savings

NETSTAR PROFLEET MANAGER

For enterprise fleets with **COMPLEX** needs, our ProFleet Manager ensures comprehensive fleet management, risk mitigation and compliance management of all your vehicles, including your trailers and cargo.

**Pricing
on request**

Key benefits:

-  Driver, fleet & cargo safety & security
-  Bespoke solutions to fit all enterprise fleet needs
-  Improved return on investment

THE RESULT

MORE FLEET VISIBILITY, EFFICIENCY & COST SAVINGS

WITH NETSTAR, YOU GET:

- **Scalable solutions** from micro fleets to large fleet enterprises.
- Best-of-breed security devices with our unique **JammingResist™** hardware.
- A **big data IoT platform** that includes business intelligence, artificial intelligence, data solutions and video-based services.
- **Better connectivity and tracking** over our dedicated GSM/GPS network.

YOUR OUTCOMES

Safer employees

More secure assets

Increased efficiency & cost savings

Better return on investment

“Netstar has far exceeded my expectation, but more importantly, the after-sales service has been outstanding.”

- Mr Rafal Szczypek, Project Manager, Fox Transport

ADDITIONAL FLEET OPTIONS

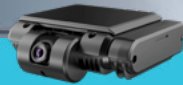

EMPOWER YOUR FLEET WITH THESE EXTRA SOLUTIONS

ASSET TRACKING & RECOVERY

Netstar's Asset Tracking & Recovery solution is a small **mobile tracking device** that can be placed in various assets, including packages, trailers and more.

It can even be used as a workforce tracking solution, if so required – adding yet another layer of peace of mind to your fleet operations.

AI CAMERA SOLUTION

With the Netstar AI Camera solution, you can proactively **coach, monitor and manage** your drivers to improve driving behaviour.

The cameras work with AI algorithms to recognise potential collisions and risky driver behaviour – keeping your drivers and fleet safe. The **Advanced Driver Assistance System (ADAS)** uses a road-facing camera to provide real-time output on safe following distances and forward collision.

DATA-AS-A-SERVICE (DaaS)

With Netstar's Data-as-a-Service (DaaS) solution, **vehicle-centric providers like car dealers, manufacturers & rental businesses**, as well as **insurers and fleet owners** can all reap the benefits of data without having to worry about the often-thorny technical aspects of managing large data sets.

HEALTH MONITOR

Put health & safety first with the Netstar Health Monitor, an easy-to-use system that notifies decision-makers immediately about possible issues.

Through **proactive safety interventions**, the Netstar Health Monitor helps you manage the general health of all your employees – benefitting both the company and staff.
